

Because 4 dives is not enough! 3 FULL DAYS of CAVE & CAVERN DIVING

Come exploring with us

Cavern and cave diving offers a unique combination of beauty, peacefulness and adrenalin. Enjoy the buzz and excitement that comes from entering 'inner-space' as well as the calmness that comes from getting away from the crowd. Tackle your fears and challenge your diving skills in an environment that is both stunning and serious at the same time – and do it all with NZ's **only** qualified cave instructor.

Because 4 dives is not enough

One of our beliefs here at Tech Dive NZ is that all training should be done to the highest standard. Whilst we recognise that the TDI Cavern & Introductory Cave Diver qualifications can be done in only 4 dives each, doing the minimum required is not what we are about. We believe that by offering a series of experience dives directly after your course you will gain far more experience and comfort in the overhead zone – which in turn means more enjoyment and fun.

Oceanblue Live-aboard trip

In order to provide the best possible experience, we have joined forces with Kevin and Janine at Oceanblue and are excited to be able to offer a unique 3 day cavern and cave live-aboard trip based at the stunning Poor Knights Islands. During these trips we offer both TDI courses, followed by a series of supervised and guided experience dives exploring some of the very best dive sites in NZ. Typical sites include: Taravana Cave, Scary Cave, The Labyrinth, Big Eye Cave, Shaft Cave, Venus' Cave, Matt's Crack, Mineshaft and Jan's Tunnel.

Cost includes

- 3 days boat diving, with up to 11 dives
- Accommodation and food onboard.
- All gas fills onboard.
- All training and certification fees
- Use of training materials

Equipment

We strongly suggest all students use double tanks during this trip, as these provide us with the most flexibility and greatest options for exploration and training. Please contact us if you are unfamiliar with the use of double tanks as we can provide you with training and instruction prior to the trip.

No one else in New Zealand offers a training or diving experience like this!

CAVERN DIVER

Explore the cavern zone (daylight area) of the overhead environment. Max 60 linear metres from surface, max. depth 40m, no decompression.

Cost: \$1,150 per person
