

## Course Overview

The GUE Primer course is designed to introduce students to the essential skills required for good diving practice. The course will provide the recreational diver an opportunity to advance his/her basic diving skills, as well as providing an introduction to GUE training and demonstrating the techniques necessary for success in future GUE courses. The course is non-certification; therefore completion of this class has no bearing on future GUE dive training.

## Prerequisites

To enrol in the course, you must be 14 years of age and be a certified open water diver from a recognized training agency. Please note that GUE does not allow smokers on any of their courses.

## What's Involved

The GUE Primer course is normally conducted over a very intense 2 day period. Combining lectures and practical (in-water) sessions, this course is designed to introduce students to the basic GUE concepts, the GUE equipment configuration and the importance of foundational skills.

## Course Skills

Propulsion techniques, buoyancy and trim, teamwork, managing your equipment, ascent and descent procedures, diver communication.

## Why Do the Course?

Do you want to start your GUE training, but think that you are not ready for the GUE Fundamentals course? Are you interested in GUE and want to know more, but have limited time? This one weekend course is a perfect introduction to GUE, the equipment configuration and some of the skills taught in the full GUE course. It's also a great chance to evaluate your own diving capacity and find out what you need to do in order to prepare for the GUE Fundamentals course.

## What's Included

The course fee covers all instructional time, gas fills, pool fees and hire of single tank wings, back-plate and regulator.

## What You Need

All GUE courses are taught in the standard GUE gear configuration. As this is the introductory course all the specifically required equipment will be provided by your instructor - you only need to bring your basic dive gear: mask, fins and exposure suit.

## GUE Fundamentals

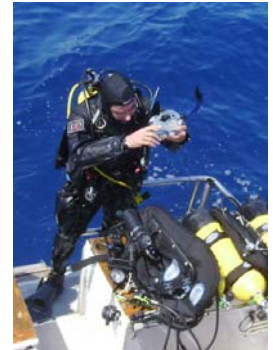

Students that have completed the GUE Primer course get credit towards the GUE Fundamentals class. Please contact your instructor for details.

## Student testimonials

*"As an introduction to GUE diving this was perfect. As soon as I've done some more practice I'll be signing up for the Fundies course."* [Danny R. – Tauranga]
